

SUCHIT TELI

Full-Stack & Backend Engineer | 2+ Years Experience | Available: June 1, 2026
7385347208 | telisuchit7385@gmail.com | Pune | [linkedin.com/in/suchit-teli-221046260](https://www.linkedin.com/in/suchit-teli-221046260)

ABOUT

Full-stack engineer with 2+ years of experience building scalable web applications, RESTful APIs, and performance-optimised solutions. Proficient in modern stacks including React, Next.js, Node.js, Express.js, and Prisma ORM. Currently building an AI-powered, multi-tenant chatbot platform using Retrieval Augmented Generation (RAG). Hands-on experience with OpenAI integrations, Pinecone vector databases, and backend system design focused on performance, scalability, and clean architecture.

SKILLS

Proficient: Node.js · Express.js · Next.js · React.js · TypeScript · REST APIs · PostgreSQL · MongoDB · Prisma ORM · JWT Auth · Redis Cache

AI / GenAI: RAG Architecture · OpenAI APIs · Embeddings · Semantic Search · Pinecone Vector DB · Firecrawl

Familiar: Tailwind CSS · WebSockets · CI/CD · Postman · Git/GitHub · Agile

EXPERIENCE

Node.js Backend Developer · Prominno Labs Pvt. Ltd.

Oct 2025 – Present

- Developing a multi-tenant, multi-owner AI chatbot platform using RAG architecture with Node.js, Express.js, and MongoDB.
- Integrated OpenAI APIs for conversational AI; implemented semantic search using Pinecone Vector Database.
- Built automated data ingestion pipelines (crawl → chunk → embed → index) using Firecrawl.
- Designed secure, isolated APIs for chatbot owners, workspaces, permissions, and knowledge bases.
- Optimised retrieval strategies and prompt design, improving response accuracy across multi-tenant workspaces.

Software Engineer · Consociate Solutions Pvt. Ltd.

Jan 2024 – Aug 2025

- Developed and deployed 4+ production full-stack applications for real clients using Next.js, TypeScript, Prisma ORM, Node.js, Express.js, and PostgreSQL.
- Built and maintained RESTful APIs; optimised database queries reducing average API response time by ~20%.
- Delivered full-stack features with MERN stack and Next.js SSR, improving page performance via code splitting and lazy loading.
- Led code reviews and mentored junior developers, increasing team delivery speed and code quality.
- Managed CI/CD deployments to production for multiple client-facing applications.

PROJECTS

1. AI Chatbot Platform (RAG-Based)

Tech: Node.js, Express.js, MongoDB, OpenAI, Pinecone, Firecrawl

- Built a multi-owner, multi-tenant chatbot system using Retrieval Augmented Generation architecture.
- Implemented full document ingestion pipeline: crawl → chunk → embed → index with Firecrawl and OpenAI embeddings.
- Enabled semantic search via vector embeddings stored in Pinecone, improving retrieval precision.
- Designed secure APIs for chatbot configuration, knowledge management, and isolated conversations per tenant.

2. Real Estate CRM Platform

Tech: *Node.js, Express.js, Next.js, PostgreSQL, WebSockets, Prisma ORM*

- Architected a CRM solution for real estate agencies with multi-role access (agent, admin, coordinator).
- Integrated real-time communication via WebSockets, improving agent response time by 30%.
- Built modules for referral tracking, lead status updates, and user activity logs to enhance workflow efficiency.

3. E-commerce Auto Parts Store

Tech: *Next.js, TypeScript, Node.js, Express.js, PostgreSQL*

- Custom e-commerce platform for an automotive dealership with inventory browsing, filtering, and checkout.
- Reduced page load time by 10% through frontend optimisation and mobile-first responsive design.
- Boosted organic reach via dynamic sitemap generation and SEO automation strategies.

4. Mango Chairs – E-commerce Website

Tech: *Node.js, Express.js, Next.js, CI/CD Pipelines*

- Led end-to-end delivery coordinating frontend, backend, and QA teams for on-time production launch.
- Primarily responsible for backend (Node.js + Express.js) and deployment via CI/CD pipelines.
- Mentored junior developers on best practices; improved team code quality and delivery speed.
- Improved performance through code optimisation and lazy loading techniques.
